

Mountain Motorsport's Green Statement

1. We are absolutely committed to fair and reasonable protection of our wilderness areas. We feel that it is vital to have areas in the country that are not accessible to motorized traffic. We feel however that in most cases too much land has already been restricted. Areas that are not deserving have recently been designated as wilderness. We absolutely disagree with many of the recent land closures that affect off road vehicles. We disagree with the state's plundering of our **green** sticker funds and converting them to non OHV use.
2. We encourage responsible land use. We are sometimes our own worst enemies. I have seen staging areas and riding areas littered with trash at times. Please don't litter. Please stay on the marked trails. Be courteous when you encounter horses or hikers on mixed use trails. Do what you can to be good ambassadors of our sport.
3. Get involved! Get vocal! Stay on top of the issues. Write your lawmakers when you read about a land closure. Let them know your opinion. The anti off-road activists are not shy about voicing their views. We should not be either. Determine the lawmakers in your area that are in favor of increasing land access to off-roader and send them some **Green**. Support those who support our sport.
4. Donate some **Green** to a worthwhile pro off-road organization. These issues cost money to fight. We regularly donate to several off-road organizations that fight unfair land closures.
5. Go out and ride your motorcycle or ATV in the **Green** out doors. There is no better way to enjoy nature than on a motorcycle. Motorcycles are very fuel efficient. We sell models that get close to 90 MPG. They are definitely a **Green** way to have fun. Don't let the eco geeks tell you otherwise.
6. Save **Green** at Mountain Motorsports. We have been working hard to save you **Green** since 1970. We look hard for bargains and special purchases and pass the savings on to you.
